In this course, Corey Ferreira shares his methods for finding a product to sell, testing its popularity, and building an unforgettable brand. Recommended for: Sales managers who want to improve the performance of their sales team Experienced salespeople looking to level-up their skills 19. Recommended for: Marketers of all levels who want to further their knowledge or practice their existing Google Ads knowledge Business owners who want to learn how to set up Google Ads 16. We only recommend it if you have an active Adobe Creative Cloud subscription. This online coding lesson offers easy-to-follow instructions, interactive quizzes, and a tested curriculum that can help anyone learn how to code. Recommended for: Marketers of all levels who are planning to do email marketing Free SEM Courses 15. Recommended for: Marketers, salespeople, and freelancers wanting to learn HTML and CSS Udacity offers a variety of other courses that can teach you to code. Recommended for: New marketing professionals Experienced non-marketing professionals shifting into marketing 2. Mandarin Chinese Level 1 will give you the foundation you need to take more advanced Mandarin courses. Facebook Marketing (~1.5 Hours): Facebook is a huge platform, ripe with marketing opportunity. Learn Adobe Illustrator From Scratch by EduOnix Length: 10-11 Hours Adobe Illustrator is one of the best tools you can use for your graphic design projects. It will give you an overarching overview of gender and sexuality through a variety of perspectives and lenses. You'll learn to segment your user base and optimize email deliverability rates. The Art of Sales: Mastering the Selling Process Specialization by Northwestern University Length: 6 Months This course is designed to make you more effective and efficient as you pursue your sales goals. The goal? It's ideal for you if you're interested in finding influencer partners on Instagram and build a visual identity. While the course is sometimes archived, you may be able to access it live and discuss the course materials with other current students. In the pop-up, click "Audit the course." This will give you the option to view the course materials without paying for the certificate. Stock Market Investing for Beginners by Udem Length: 1.5-2 Hours Learn the basics of the stock market through comprehensive, interesting, and fun lectures. While anyone would benefit from taking this course, it's specially recommended for professionals in people-management roles. It aims to help anybody involved in social media analytics, whether you're working for a brand, an agency, or the media. If you're looking for one single place to learn how to take your career to the next level and/or grow your business, check out HubSpot Academy. Regardless of your favorite humanities subject, learning how to carry out research and visualize the subject using digital tools is essential if you'd like to progress in your career. But online business courses will provide you with the time and space you need to explore a topic in depth and truly master a new skill. It's not applicable just to cold emails, either. Free Fundamental Marketing Courses 1. It's a great foundational course for any type of writing discipline, including fiction writing. This is an excellent option for anyone who'd like to strengthen their writing skills without necessarily diving into additional topics such as marketing or essay writing. Keep reading to become an expert in whatever subject you feel can best help you succeed. Because it starts from a basic starting point, we recommend it for beginner marketers only. Global History Lab by Princeton University Length: ~3 Months If you're in need of a history course, consider Princeton University's Global History Lab. 25. Basic strongish 1: Getting Started by the Universidad Politécnic de Valencia Length: ~7 Weeks Learning a new language is always a worthwhile investment, especially if you're a global marketer or salesperson. Because algorithms are a more advanced coding topic, we only recommend it if you're planning to shift into a programming career. Online courses allow you to get a head-start on the fundamental skills you need to grow in your career or switch to a new field. By Babson College Length: 3-4 Weeks Marketing Fundamentals: Who Is Your Customer? Recommended for: Anyone who wants to overcome the fear of public speaking 30. In this course, you'll learn how to craft a blogging strategy that drives business growth, create quality blog content that customers love, and build a guest blogging strategy that's powered by SEO. These abilities will be a great boost for both your professional and personal relationships. 8. This basic strongish course by the Universidad Politécnic de Valencia will help you establish a foundation for further learning. It'll help you rewire the way you think about happiness. Twitter for Business Marketing (~2 Hours): You know Twitter beyond the basics, and now it's time to bump it up a notch. This is an essential course for anyone who'd like to invest and diversify their portfolio. From finding your voice to buying paid advertising, this course walks you through a proven process for creating custom social strategies. We recommend it for new graduates or anyone who's still in college. Recommended for: Any professional who's interested in history 43. To take this course for free, click the "Enroll for Free" button. You'll learn by doing, and will build your own search engine and social network. Recommended for: Professionals of all levels 32. It's a short course, too. Good with Words: Writing and Editing by University of Michigan Length: 19-20 Hours Good with Words: Writing and Editing prepares you to write strong prose from a grammatical, technical, and syntactical standpoint. Build Your Web Presence by Google / Digital Garage Length: 30-60 Minutes Learn the basics of websites, local business listings, review sites, social media, mobile apps, and more. Originally published Jan 6, 2022 7:00-00 AM, updated January 06 2022 Getting Started with French 1 by The Open University Length: ~6 Weeks Have you been wanting to learn French? Email Marketing Certification by HubSpot Academy Length: ~3.5 Hours Email marketing is a necessity to learn. In this course, you'll learn the advancements in building and launching a successful Twitter marketing strategy. Editor's note: This post was originally published in January 2020 and has been updated for comprehensiveness. You'll be able to utilize Apollo HD Map, localization, perception, prediction, planning, and control, and start the learning path of building a self-driving car. Whether you're a social media coordinator or the director of social media marketing at an enterprise firm, Twitter Flight School's courses will help you build the knowledge and skills you need to scale and improve your Twitter marketing strategy. Recommended for: Anyone who'd like to improve their happiness in work and life 35. Understand how to stand out in the crowd, attract customers, and build support for initiatives within your company. SEO Certification Course by HubSpot Academy Length: 2-3 Hours Interested in building traffic, but unsure about a successful strategy? That said, it's also a great course to take if you're interested in going into marketing. Recommended for: New content marketers, content writers, and content managers Experienced non-marketing professionals moving into a content marketing role 5. Recommended for: Any professional who writes emails, social posts, articles, and web pages in their role 34. We recommend taking this course for fun. Recommended for: Marketers at small businesses without an Instagram strategy Freelance bloggers and online content creators 11. Recommended for: Mid- and senior-level marketers with a hand on strategy and ideation Brand managers of all levels 6. One of the languages you can learn is Java, which can be used to create web applications, software-as-a-service products, and mobile apps. Let's take a look at the best courses below. We recommend taking this course once you've got the basics down, such as how to run a dropshipping business. This is a good course to take if you feel your marketing efforts aren't yielding the results you want or aren't becoming as widespread as you'd like. Recommended for: Ecommerce sellers who want to grow their business 23. While it's branded as a marketing course, it's designed for entrepreneurs who don't know how to begin marketing their new product or service, and who want to understand their target market. Marketing Fundamentals: Who Is Your Customer? Video Storytelling for Social Media by Social Creators Length: 5 Days This crash course is set up like a challenge. While every professional will benefit from taking the content marketing certification course, it's especially recommended for new content writers and content managers. We're right there with you. It looks at the financial principles that govern how businesses raise funds, invest those funds in assets and projects, and return those funds to investors. Learning How to Learn: Powerful Mental Tools to Help You Master Tough Subjects by Deep Teaching Solutions Length: ~15 Hours Whether you're a student or a young professional, learning how to digest and access information is a key skill to succeed at both school and work. Recommended for: New sales professionals trying to get a high-level overview of the most important sales topics Sales managers who want to level-up their team Free Ecommerce Courses 20. You'll learn to bridge the gap between marketing and sales teams with strategies and tactics from sales leaders. Ecommerce Marketing Training by HubSpot Academy Length: 30-60 Minutes If you work for an ecommerce business and want to implement an inbound marketing strategy, this is a good course for you. This is an advanced coding topic that's only recommended for current programmers. Whatever your reason, learning new skills will give you a
competitive advantage in today's rapidly changing workplace. It's ideal for new graduates who'd like to go into marketing or for experienced professionals who're considering shifting into a marketing career. We highly recommend this course for new social media marketing managers who don't know how to measure analytics for their company's social channels. Recommended for: New and experienced social media professionals who are planning to use Twitter extensively Any marketer or professional who wants to specialize in Twitter marketing Free Email Marketing Courses 13. The Fundamentals of Business by Smartly Length: 2-3 Hours / Week (6-8 Weeks) Designed with input from business professors, Smartly's Fundamentals of Business course combines a self-guided software approach with collaborative online case studies and group projects. This is a top-to-bottom course that will give you the foundations you need for starting a business. It's an excellent follow-up to UC Berkeley's course above. These cover the main business skills you'll need to advance in today's rapidly changing workplace — from digital marketing and coding to selling, managing conflicts, and more. Inbound Sales Certification by HubSpot Academy Length: 2-2.5 Hours In this certification course, you'll learn how to grow your sales pipeline, close more leads, and grow your career. Communication Skills - Persuasion and Motivation by NPTEL Length: 1.5-3 Hours This course will introduce you to essential communication skills that aid persuasion, guide you through the differences between persuasion and manipulation, and show you how to use strong communication to motivate the people around you. Business Blogging by HubSpot Academy Length: 2 Hours Business blogging is more than just writing and publishing content in the hopes you'll attract customers. You'll get a taste not only of the English literary tradition, but of others around the globe, too. Learn how to develop an effective marketing strategy using Facebook that covers all the bases. Recommended for: Any professional who carries out research in the humanities 41. Once you've got the leads from your ecommerce website, it's time to nurture them through email marketing. Recommended for: Experienced marketers working at ecommerce businesses Freelance marketers with ecommerce clients Free Coding & Developer Courses 24. Recommended for: Entrepreneurs with an existing business presentation. Corporate Finance by New York University Length: Self-Paced New York University's Corporate Finance course is a big-picture class. Viral Marketing and How to Create Contagious Content by Coursera Length: 4-5 Hours Ever wondered why some things become popular, while others don't? If you want to create a web or mobile application that uses machine learning to improve the user experience, we recommend this course. Recommended for: New marketers who want to learn the basics of SEO and improve their SEO skills Experienced non-marketing professionals who want to learn SEO Free Sales Courses 17. Recommended for: Video and content marketers getting started with video marketing Marketing managers who want to start a video marketing strategy Free Social Media Marketing Courses 7. You'll figure out where to get started in mini, bite-sized lessons or jump straight into the certification process. Below, we've gathered the best free online business courses. Successful Negotiation: Essential Strategies and Skills by University of Michigan Length: ~17 Hours In this course created by the University of Michigan, you'll learn about and practice four key steps to a successful negotiation. Recommended for: Anyone who'd like to improve their communication skills 36. You'll specifically learn how to create an app using Xcode, Apple's iOS app builder, and Interface Builder, which is a feature within Xcode. How to Build a Startup by Udacity Length: ~1 Month In this course, Steve Blank provides insight into the key steps needed to build a successful start-up. Recommended for: Any professional who's planning to use French at work or for leisure 46. Help you make high-quality videos with your iPhone or Android device so you can start vlogging and share engaging videos on your social media accounts. If you've been in a digital marketing role for a few years, chances are you're familiar with most of this information. This course is a helpful introduction to making your business visible online without delving too deeply into the specifics. In this short crash course, you'll learn the basics of selling more online, and how that fits into an inbound strategy. Recommended for: Any professional who's interested in coding their own iOS app 27. Sales Management Training (Length: 3 Hours): Learn how to define your target market, create a scalable sales process, and build training, coaching, hiring, and on-boarding programs to help your sales team grow. Introduction to iOS App Development, Interface Builder by Developes Length: 10-15 Hours This iPhone app development course will give you all you need to create your very own iOS app from the ground up. Of course, if you want to become an expert, that takes even longer. Managers would also benefit from taking the first course. "How to Create a Successful Video Marketing Strategy," if they've not yet established a video marketing strategy. Recommended for: Any professional who's interested in gender and sexuality Free Language Online Courses 44. Because it's a more advanced programming topic, we only recommend it if you're planning to start a computer science career or develop your own web app or SaaS. This course will run through the entire process. Recommended for: Any marketer or professional who's planning to email leads or other professionals in their network Any professional who wants to improve their cold emailing skills 14. Instagram Marketing (~2.5 Hours): An Instagram marketing and advertising strategy is one of the most powerful ways to connect with customers and drive marketing impact. This course will teach you techniques to overcome the fear of public speaking, as well as how to avoid feeling nervous before speaking publicly. Recommended for: Any professional who's interested in global literature 42. This course will teach you how storytelling, content creation, repurposing, and promotion come together to build a content marketing machine that grows your business, and your career. Recommended for: Mid- to senior-level professionals moving into a managerial role 33. It's ideal for social media managers and anyone who would be creating videos for your company's YouTube channel. We don't recommend it if you're not planning to extensively use Twitter as a marketing channel. It's a great fit for marketers of all levels who need a strong foundation on social media marketing. Due to its inclusion of advanced marketing topics such as A/B testing and segmentation, we recommend it for experienced marketers at an ecommerce retailer. Recommended for: Programmers who want to get foundational knowledge in machine learning Free Personal & Professional Development Courses 29. Conquering the Fear of Public Speaking by Udemy Length: 30-60 Minutes We all fear public speaking — or, at the very least, feel a measure of anxiety whenever we have to give a speech or a presentation. Corporate Finance by New York University Length: Self-Paced New York University's Corporate Finance course is a big-picture class.
